Lattimer Delegate Asked the Strikers to Go There.

NEW EVIDENCE AT MARTIN TRIAL.

Flag Bearer Fell Dead In the Ditch at the First Shot-One Witness Says He Heard the Sheriff Give the Order to Fire,

WILKESBARRE, Pa., Feb. 15.—On the fourteenth day of the trial of Sheriff Martin and his deputies, charged with the killing of the strikers at Lattimer, John Pusti was the first witness called. He testified as follows:

"I was with the strikers when the shooting occurred at Lattimer. When we approached the sheriff, he walked to the middle of the road and told us to stop. Some few of the men went forward, and I then heard two volleys from the deputies. None of the strikers was armed. I was shot in the right arm, and as I started to run I was shot in the right leg, the ball entering from the back and coming out in front. Of the deputies I can only remember seeing John Cook and Pardee there."

Thomas Raczick, speaking about the meeting at Harwood the night before the shooting, said a delegate. Joseph Caltick, came over from Lattimer and asked them to march-over there the next day and invite the men employed there to join the strike. The giving of this delegate's name is new evidence. Raczick told about seeing several men fall. He knew one, Steve Urach, who was killed, and was near him when he was shot.

Marcy Guncavage testified that he was marching with the strikers at West Hazleton when the sheriff seized him. He begged to be let go, whereupon the sheriff said: "You seem a good fellow. You had better get away from this, as there is going to be big trouble here to-

Continuing, the witness said that when the strikers arrived at Lattimer he was about 50 feet behind the marchers. He then heard the sheriff give the order to "Fire!" and a shot followed. The shot came from near where the sheriff stood.

George Resoter, in a long story of the shooting, brought out a fact not given before, that at the firing of the first shot the flag bearer at the head of the column of strikers fell dead in the ditch bordering the road. The witness did not know the man's name. He saw two other men wounded while running away. Peter Rudey told the same old story of the affair.

Andrew Sivar, No. 1, as he is called to distinguish him from his nephew, No. 2, told how after the volley fired by the deputies at Lattimer a large number of them ran after the strikers and kept firing as they ran. He could not mention the names of anv.

Peter Zucelk showed a scar on the top had plowed up the scalp to the bone for about an inch and a half. He was running away at the time. Mike Tuchar, who was slightly wounded in the wrist, showed the scar, but gave no new testimony.

Joseph Poniatowski said that the first shot came from some deputies standing near the sheriff. He saw several men fall as he was running away. He denied on cross examination that any of the men cried, "Go on, go on," and he could not describe the crowd surrounding the sheriff, saying he was too badly frightened to see and remember what happened. He could not hear what the sheriff was saying, he said, although he tas only a few feet away.

Resolution Adopted by State Senate by Vote of 28 to 13.

ALBANY, Feb. 15 .- The Weekes resolution censuring Senator Murphy for his vote in favor of the Teller silver resolution, which passed the assembly last week, was adopted by the senate at 1:30 this morning after a debate of KLONDIKE VESSEL WAS THE VICTIM. nearly five hours.

The Democrats abandoned their tactics of attempting to ridicule the resolution and were forced into a direct discussion of the Teller resolution. They sought to defend Senator Murphy on the ground that the Teller resolution did not contemplate the free coinage of

silver. The first vote came shortly after 1 o'clock on Senator Grady's motion to steamer Islander that the strike out one of the sections. This Skageryay from Seattle type weeks ago. was beaten-25 to 13-and his other was lost as she was returning, with all amendments were lost by the same vote. In each case the vote was strictly on party lines. The final vote on the adoption of the resolution was 28 to 13. It does not call for Senator Murphy's resignation, as it did when introduced, that feature having been stricken out subsequently by Mr. Weekes.

### FILIBUSTERS AT WORK.

The Redoubtable Dauntless Slips to Sea From Fernandins, Fia.

FERNANDINA, Fla., Feb. 15.-A tug, supposed to be the Dauntless, slipped up to the steamer wharf here and proceeded at once to take on boxes and supplies, supposed to be ammunition. Seventy Cubans later arrived by special train and immediately went aboard. Colonel Nunez was in charge. A full supply of coal was also taken aboard, and she then put to sea.

Spanish Consul Carrio says he has doubts as to whether the expedition left or not. The deputy collectors' houses were both closely watched to prevent interference from them.

A dispatch from Tampa, Fla., says: "The Cuban expedition that left here is now safely at sea and will join the expedition that left Fernandina on the Dauntless."

### McGiffert's Name Not Mentioned.

NEW YORK, Feb. 15.—In the lecture room of the First Presbyterian church the regular weekly meeting of the New York presbytery was held yesterday afternoon. The Pe♥ Dr. W. A. Buchanan, the moderator, presided. The attendance was large, probably due in part to the fact that it was expected some action might be taken in the case of the Rev. Dr. Arthur C. McGiffert, who, as was told in yesterday's dispatches, has written a book containing alleged heretical views. Nothing was done in the matter, however, his name not being even mentioned, so it is said.

# SENATOR MURPHY CENSURED. BLOWN UP AT SEA. WILL NOT EAT CROW

Lives In Sight of Land.

While Crowds Watch the Clara Nevada Ablaze in Berner Bay the Ill Fated Vessel Goes to Pieces-Fire Aboard Steamer Oregon.

NANAIMO, B. C., Feb. 15.—News arrived here from Union, B. C., last evening by the steamer Islander that the Skagguay from Seattle two weeks ago, passengers on board. The meager details received are as follows:

The Clara Nevada left Skagguay for Juneau on her home trip, and when off Seward City, in Berner bay, about 30 miles south of Skagguay, she was seen by the inhabitants of Seward City all ablaze. While the long wharf at Berner Bay was crowded with spectators of the awful scene a loud report was heard which resembled the explosion of a boiler, and nothing more was seen of the ill fated steamer.

The following day the beach was strewn with wreckage which resembled that of the Clara Nevada. It is feared that the unfortunate passengers, 40 in number, and the entire crew, 26 men. are lost, as no trace can be found of

them The sea was rough and a furious gale was blowing. It is thought she was trying to make Berner Bay for shelter. The steamer Rustler has left for the scene, but no news here is obtainable. The Islander reports terrible weather at Skagguay and along the coast.

The Clara Nevada was a steamship of about 1,000 tons and was formerly known as the Hassler, and was in the government revenue service in Alaskan waters. Recently she was purchased from the government by the Pacific and Alaska Transportation company, fitted up and placed in the Alaska trade. She vas regarded as perfectly seaworthy.

### The Oregon on Fire.

ASTORIA, Or., Feb. 15 .- A grave disaster at sea on the steamship Oregon was averted yesterday afternoon by the prompt action and good discipline of the officers and crew. She left here at 2 o'clock on her way to Alaska with 465 passengers, 150 head of live stock and about 1,200 tons of cargo, principally the outflts of the passengers.

The officers an hour later saw smoke coming up from the engine room. The smoke continuing, an investigation was ordered. The smoke was found to be coming from the starbeard coal bunkers. Captain Stevens was immediately notified, and he ordered every member of the crew on duty, with strict instructions not to permit any of the passengers to know of the fire.

The pumps were manned without confusion, while the passengers were led to believe that the usual washing down of decks was taking place. The course of the steamship was changed back toward Astoria, and the tug Escort, near by, was signaled to keep close alongside. The starboard bunkers were then opened, and ever stream of water available was turned into them.

From the open bunkers heavy clouds of smoke came, filling the vessel for a few minutes, but before the passengers could realize what was happening the bunker was flooded, and the fire was extinguished.

Sixty-six People Lose Their | Spain Considers De Lome's Resignation Enough.

GIVES WOODFORD THAT ANSWER.

Decides Upon Appointing Senor Louis Polo Bernabe to Act as Its Representative at Washington-Calderon Carlisle Now Has the Famous Letter,

MADRID, Feb. 15 .- The cabinet met yesterday and discussed the present state of the war in Cuba and the De Lome matter at great length. It was decided to publish a decree accepting the resignation of Senor Dupuy de Lome as minister at Washington and appointing Senor Louis Polo Bernabe as his successor.

Senor Bernabe, whose appointment as the successor of Senor Dupuy de Lome was predicted, is a son of Vice Admiral Polo, who formerly represented Spain in this country. Senor Bernabe is now engaged in a special department of the foreign ministry at Madrid dealing with commercial matters and con-Búlates.

Senor Gullon, the minister of foreign affairs, informed the cabinet that Unit-ed States Minister Woodford had just handed him a note referring to Senor Dupuy de Lome's letter and to the meaning of several paragraphs in it.

The note from Minister Woodford demanded that Spain should formally disavow the insults to President McKinley contained in Senor Dupuy de Lome's letter to Senor Canalejas.

The cabinet council, it is reported, decided unanimously to reply to Minister Woodford that Senor de Lome's spontaneous resignation and the terms of the decree accepting it were considered sufficient satisfaction. It is understood that Minister Woodford received this Intimation and dispatched a long cipher telegram to Washington.

### De Lome to Leave Tonight

WASHINGTON, Feb. 15.—Senor Dupuy de Lome is to leave Washington tonight, sailing from New York tomorrow for Liverpool. He will proceed from Liverpool to the continent for a quiet rest and then go to his home near Valencia.

Actuated by a sense of honor and a strict idea of justice, the state department has taken steps to place in the hands of Senor C ralejas, to whom the letter was addressed, the epistle written by Senor Dupuy de Lome which led to the resignation of the minister. The transaction is explained in the following brief statement given out last night by the state department:

"Recognizing that the legal owner-ship of the De Lome letter is in Mr. Canalejas, and his agent and attorney, Mr. Carlisle, having presented proper authority to receive the same, the letter was delivered to him today."

### THE ZOLA TRIAL.

Bertillon Gives Absurd Evidence, and the . Day's Testimony Favors the Accused.

PARIS, Feb. 15.-When the trial of MM. Zola and Perreux was resumed at the assizes court the lobbies of the court were less noisy and the court was not so crowded as last week. There was no demonstration when M. Zola reached the courthouse. M. Jaures, the Socialist member of the chamber of deputies, was recalled. He reiterated his belief in the

culpability of Major Esterhazy. M. Bertillon, the handwriting expert, gave some absurd evidence, while displaying a fantastic diagram, amid continuous shrieks of laughter. After fruitless efforts to obtain intelligible testimony from this witness, M. Laborie turned to the jury and said: "The whole case against Dreyfus stands before you.

They had him and the bordereau." Altogether, the day was rather favorable for M. Zola. It is rumored that a report from Judge Bertulus, who has been inquiring into recent developments in the Dreyfus case, will be produced and read in court, dealing with unpublished letters of Count Esterhazy. It is likely to cause a sensation.

House Adopts a Resolution Calling For Information In Cuban Affairs-Inquiry Directed Into Germany's Discrimination Against Our Products.

WASHINGTON, Feb. 15.—During the short open session of the senate yesterday two phases of the Cuban question were solverted to briefly. . The amendment of Mr. Allen (Neb.) to the diplomatic and consular appropriation bill recognizing the belligerency of the Cuban insurgents was reported adversely by the foreign relations committee, not, as Mr. Morgan explained, on the merits of the amendment, but because the committee did not approve of tacking such legislation to appropria-

tion bills. Mr. Morgan's resolution calling upon the president for the reports of United States consuls in Cuba and for informaof La Libre Parole, has challenged M. I tion as to whether any agent of the Jaures, the Socialist leader, to a duel autonomous government in Cuba had been accredited to this government and recognized by it was adopted without dissent. A feature of the session was a speech in advocac of the free comage of standard silver dollars by Mr. Allen (Neb.). During the remainder of the afternoon the senate was in executive session.

> Almost four hours were devoted in executive session to the consideration of the Hawaiian treaty. The principal speech was made by Senator Pettigrew, this being the third installment of his remarks upon the subject. Senator Pettegrew devoted himself largely to the administration of President Dole, showing how the government of Queen Liliuokalani had been overthrown, and to a presentation of his views of this government's participation in the revolution. He contended that the downfall of the queen's government was due to a conspiracy on the part of Minister Stevens, representing the United States, and a few citizens of Honolulu, of whom President Dole was one, who were backed by the marines from a United

States warship. Following Mr. Pettigrew. Senator Teller made a brief statement, calling Mr. Pettigrew's attention to the fact that the United States minister was not the only representative of a foreign government who had recognized the Dole government. Mr. Pettigrew replied that this was true, but that the recognition the other governments had not come til the day follwing the queen's abdition, whereas Minister Stevens' recognition had been before that time.

### Congressmen Unduly Excited. WASHINGTON, Feb. 15.—Considerable unnecessary excitement was caused mone the memb day by the rumor oadly circulated her

fore the house convened that important artion relative to Cuba was to be taken. I turned out to be simply a resolution inquiry unanimously reported by the foreign affairs committee last week calling on the state department for information as to the condition of the concentrados in Cuba and the progress made in Spain's effort to induce the Cubans to accept autonomy. The resolution was adopted without division.

The William Alden Smith resolution inquiring into the recent restrictions of the German government on American products was passed yesterday and was changed in several important particulars by the foreign affairs committee before being reported. As introduced the resolution referred to "attempted adulteration of" German wines for export to the United States. The committee struck out the qualifying word "attempted." Instead of inquiring into "the dis-COLUMBUS, O., Feb. 15 .- Timothy crimination" against American beef. fruit and horses, the committee substituted the more sweeping "any discrim-Ination," while the following clause, "in violation of our commercial trade treaties, or otherwise," is entirely omitted,

### BUSY MALLEE, HENS They Build Nests Fully as Large as a City Lot.

The mailee hen of Australia lays its eggs in a buge nest. The nest is really an artificial mound of gigantic proportions for the size of its maker and the purpose it is to serve. This artificial mound is a cooperative incubator. It is built by many pairs of birds, male and female working alike to construct it. These same pairs or flocks of birds annually repair and enlarge the queerlooking cone, which rises up like a turret dome from the level prarie.

Sometimes these tunnels attain height of fully 15 feet in the perpendic-

ular, with a radius of equal measurement. Many of these nests have measured as much as 50 yards, or 150 feet. around their base. That would give the largest one measured a diameter of about 50 feet. These mound-nests are entered through a sort of funnel cavity at the top of the cone.

The hens of all the building and repairing pairs lay in this immense nest. The eggs are deposited about six feet below the surface. While each hen lays her egg in the family mound, no ben drops her egg closer than 20 inches to that of her neighbor. These eggs are deposited in a cavity made for it wherein it is placed in a vertical position. carefully covered and the surface as carefully smoothed over by the hen before she quits the nest. Contrary to the usual practice of the bird and fowl species, these mallee hens lay at night instead of in the day. Several days clapse also between the dropping of two eggs by the same hen.

The eggs of the mallee hen are out of all proportion to her size. They are as large as those of a goose, and of large hens are very much larger.

The eggs thus laid and covered in this great sand oven in the hot districts are never again disturbed by the hens. The eggs are hatched by the heat the sun bakes into the soil where they lay. It has never been known how the young chicks are excavated from their egg grave, for the eggs are deposited fully six feet below the surface, and the hardening rains do not aid their exit very much.

The hen is so very shy and vigilant that no one is able to study her maternal and domestic habits with satisfaction. As she lays her egg at night and transacts most of her affairs in the night watch so that no naturalist or curious individual can ferret her out, possibly she steals to her expected brood under cover of night also and gives them the parental unearthing which they must surely need after the pipping of the eggshell.

Bush naturalists have been curious to know how this peculiar fowl builds that nest. The birds bave been seen working at it and the mounds have been inspected, but the piling of the dirt is not from the immediate vicinity. for that is undisturbed. Small sprigs and the like enter into the plastic masonry, which stands storms and heavy rains, when they do fall, without se-

rious injury. These huge cones stand for years, to be annually nested in by the same flock which originally constructed the family incubator. When detected the hens emit a pitiful little cackle and flutter away like a wounded innocent. The young of a covey either root under the and or hide behind some mound or obiert of a friendly color.-Chicago Inter

### FACTS ABOUT SAFFRON. Its Use in Medicine Bas Practically Died Out.

Saffron would strike an ordinary cbserver as decidedly expensive at 56 shillings per pound until told that it is composed of the central small portions only of the flowers of a species of crocus, 70,000 of which it takes to yield the material for one pound. The wonder then becomes that it is so cheap, that it can pay to grow and gather it at the price. As a matter of fact, it has failed to pay the English grower-by this retaining, in the name of his town of Saffron-Walden, but a hint of former importance in this particular direction-French and Spazish soils being more suitable to the full growth of the flowers and foreign labor cheaper in the work of picking. Its use in medicine has practically died out, bar, perhaps," the popular belief that, steeped in hot milk or eider, it helps the eruption of measles to fully appear, says Chambers' Journal,

### THE HORSE TRAINERS' LIFE. It Is Full of Responsibilities and Auxieties.

According to a sporting authority, the life of a horse trainer is about as little to be envied as that of any mortal. In the excitement consequent to a big race the jockey is the hero of the hour, and never a thought is bestowed on the trainer, to whose fostering care both horse and jockey owe the burst of enthusiasm that invariably proclaims victory. The jockey has the bays, the trainer none. The responsibility and anxiety felt by the jockey when he rides a Derby-winning favorite is but a drop in the ocean compared with that which weighs on the mind of a horse's trainer. The jockey's troubles are over within the space of a few fleeting moments, but the trainer who has a crack in his charge knows no peace of mind for months. Sleepless nights are frequently his portion. He never can tell from one to another what may happen. Be the horse ever so sound, he cannot tell when an accident may destroy all hope of success, and bitter must be his experience when be sees victory slipping from his grasp. If the horse be a delicate one, with a slight suspicion of being not quite right in his wind, or un-certain on his legs, and the winter be a hard one the trainer has a weary and unhappe time of it, and it must be with a feeling of priense relief that he de-livers the borse fit and well on the eventful day of the big race.

# TOMPKINS' NEW DRY GOODS STORE.

Nos 6-8 East Main Street, Middletown.

# REMOVAL SAILIE

About April 1st we will move into the large salesroom, NO. 35 NORTH STREET, now occupied by MR. GEO. B. ADAMS From the first day that we opened our store at No. 8 East Main street. Middletown, our enccess has been phenomenal. We found we needed more room and added to our quarters the store next door, No. 6 East Main street. Even with that added found we needed more room and added to our quarters the store next door, No. 6 East Main street. Even with that added room we have found that we cannot properly handle our trade in these cramped up quarters, so have taken a lease on store in Adams' Building, which will give us about 8,000 square feet of floor room. In that large store we want to do double the business we are doing here. Our system of selling strictly for cash, of having no losses in bad debts, enables us to sell good reliable merchandise cheaper than any credit house dares to sell.

There are now 1.500 million people in the world—140 million Protestants, 295 million Catholics, 8 million Hebrews, 175 million Mohamedans and 870 million Heathens. Here is more glory than we can well attend to, but we propose to sell our share of Dry Goods to this 1,500 million people. Our Great Removal Sale is now began. We intend to wipe out our stock as near as possible before moving time comes. Our two stores and basements are stacked full of Dry Goods. They must go All profits are lost sight of. Come and buy goods at retail for the same price the dealers buy in bale and case lots.

THE JACK RABBITS OF TEXAS. Not Commonly Used as an Article of Food.

"The big rabbits or bares that hang in front of Washington restaurants are not the jackrabbits or 'mule ears' that abound on the Texas prairies." said Mr. C. O. Kerns, of the Lone Star state, reports the Washington Post. "The sort that we have and that are common all through the southwest are of a brown color, identical with their small 'cottontail' brethren that abound in Virginia and Maryland, and that are numerous all through the old southern states. These imported hares with white bellies come from Canada, where all wild animals turn white in winter to match the snowclad earth, and they are not nearly as large as our Texas jackrabbits, nor do they have the enormously big ears that distinguish the Texas family. I should say that ours will get over the ground twice as fast as their Canadian cousins. A greyhound is the only animal, in fact, that can overtake a mule ear. An ordinary dog never forgets himself so far as to chase one for even the distance of a city block. It would be a rank waste of canine energy to do so. The jackrabbit is regarded at home more as an ornament to the landscape than anything else. Hungry men in camp who have run out of ordinary grub will occasionally kill them to stop the pangs of hunger, and they are said to be really fine eating, but they are not regarded as fit for the menu of the average Texas family."

# A BARBAROUS SURGICAL OPERATION

# For the Cure of Piles.

Is not only intensely painful, dangerous to life and very expensive, but in the light of modern medical research and since the discovery of the Pyramid Pile Cure a surgical operation is wholly unnecessary. If you have any doubt on the point kindly read the following letter from people who know that our claims regarding the merits of the Pyramid Pile Cure are borne out by the facts.

From N. A. Stall, Ridge Road, Niagara Co., N. Y.: I received your Pyramid Pile Cure and tested it last night. It did me more good than anything I have ever found yet, and remember this was the result of one night's treatment only

From Penn W. Arnett, Batesville, Ark. Gentleman:-Your Pyramid Pile Cure has done me so much good in so short a time that my son-in-law, Capt. T. J. Klein, Fort Smith, Ark., has written me for your address, as he wishes to try it also.

From A. E. Tounsend, Benville, Iud.: I have been so much benefitted by the Pyramid Pile Unre that I enclose \$1 for which please send a package which I wish to give to a friend of mine who suffers very much from piles. From John H. Wright, Clinton, De-

Witt Co., 1lls.: I am so well pleased with the Pyramid Pile Cure that I think it but right to drop you a few lines to inform you it; effects have been all that I could ask or wish. From P. A. Bruton, Llano, Tex.: Gen-

tlemen:-The Pyramid Pile Cure has done so much good for me that I will say for the benefit of others that after using only two days I am better than I have been for months. The Pyramid Pile Cure is prepared by

The Pyramid Drug Co. of Marshall, Mich. and it is truly a wonderful remedy for all forms of piles. So great has been the the number of testimonial letters received by them from all parts of the country that they have decided to publish each week a number of such letters.

All druggists recommend the Pyramid Pile Cure, as they know from what their customers say that no remedy gives such general satisfaction.

THE TEMPERATURE. The following was the registry of the thermometer at Pronk's drug store, to-day:
7 a. m., 29 12 m., 34°: 8 p. m., 33°.

It is a matter for felicitation that the Water Commissioners, after having been d'vided on questions of detail for years. have at last agreed upon and united in recommending a plan for an increased water supply.

The New York Press Association, the Democratic Editorial Association and the Republican Editorial Association have united in a formal protest against the Ellsworth anti-newspaper bill. against which nearly every newspaper of the State is clamoring. Here is a chance for the boasted power of the press to assert itself but it is almost a certainty that the legislators will not heed the newspapers' protests. And for this the newspapers themselves are to blame. No matter how he votes on the Elisworth bill every Senator and Assemblyman feels sure that if renominated, he will be supported by his party newspapers in his district and secure in this knowledge, be will dare to array himself against the interests of all the newspapers of the State. The newspapers through blind alliegauce to party, and a still blinder and more unreasoning loyalty to their party's candidates have lost the confidence and respect of the public and with it the lofluence that they might exert.

Alderman Allen, by abandoning his position of independence and voting with the machine Republicans, made it possible for them to appoint a Republican Alderman from the Third Ward. The office is of small account and one Repub. lican vote more in the Council can make no difference, but the resolute determination with which the Republicans grabbed at this office, in spite of the fact that the people of the ward declared most emphatically, last fall, that they wanted to be represented by a Democrat, ought not to be lost on the Democratic Aldernever concede even an empty honor to experience. Democrate, and that it Republicans ever act with Democrats it is merely because they hate certain Republicans more cordially than they do Democrats. Let the new Council put none but Democrats on guard. The people said last fall, most emphatically, that they wanted a change in city affairs, and that involves | gard to the opening of the Fowler street the right and the duty to fill all the appointive offices with Democrats.

THE FINGER AMPUTATED.

Operation Performed On the Hand of E. T. Santord.

E. T. Hanford, of Hanford & Horton, who has been troubled with blood poisoning of the middle figger of his left hand, since Christmas, had it amoutated, this afternoon.

An effort was made to save the finger, but it failed to heal and last night it was examined by the X-rays, at Ogden & Saimer's pharmacy, which showed that

the entire middle bone was diseased. The operation was performed by Drs. Stivers and Mills.

SOME HOT FIGHTS.

Jimmy Tequade Knocked Out in the Fourth Round-Other Bouts Were Lively and "Full of Push,"

The boxing tournament at Samuels' Hall, Goshen, Monday 1 ight, drew about 125 people from this city and seventyfive from Goshen and surrounding country, the most of whom put up a dollar each to witness the fights. In the absence of Joe Prendergast, of New York city, who is said to be suffering from the gout. Austin Gibbons, of Paterson, who once went against Jack McAuliffe, refereed the preliminary bouts.

The first event was between the Powers Brothers, of Goshen. The were well received, and were followed by Mc-Caffrey and Jackson and O'Connor and Watson, all of Paterson, who put up some good rounds. The "Midgets," also of Paterson, amused the crowd, and then came the final event. Jimmy McQuade, of this city, and Jimmy Gorman, of Pat erson, were to spar six rounds. It didu't last that long. however, because Gorman was too much for the local fighter.

The first and second rounds were marked by the exchange of some sharp body blows, and in the third Gorman changed his aim to McQuade's face. He fought all around the latter and nearly had him whipped in this round.

In the fourth round McQuade was knocked down twice, and he had hardly recovered his feet the second time when Gorman knocked him up against the ropes, and there he leaned and fanned the air a few moments while Gorman walked back to his corner and was declared the winner.

M. Dougherty, of Philadelphia, was the referee of this bout, and Thomas Sweeney held the watch.

A THIRD WARD ALDERMAN AT LAST APPOINTED.

Alderman Allen Voted With the Reau iar Republicaus and Pour & Gwen Was Samed—The Beal Mades at a "Harmony Dinner"—Important Communication from the Water Board-Have Agreed on a Plan for Increasing the Water supply, and Want \$175.000-Minor Bustness.

The Common Council met in regular session, Monday night, and one of the interesting acts of the evening was the election of Oscar E. Owen as Alderman from the Third Ward to fill the chair made vacant by the election of Mr. Ogden as Chuirman of the Council.

This was accomplished by Mr Allen's casting his vote with the other Republicans, Mr. Tierney voting for Mr. Gaviu. Messrs. Hirst and Bastain were absent. This appointment was the result of a "harmony dinner" given by Mayor Mance at Mr. Allen's home on Watkins avenue. Mr. Tierney was kept in the dark by Mr. Allen and the Mayor and his surprise when it was shown that Mr. Allen had flunked was very evident. Mr Hirst who came in later also expressed himself forcibly to Mr. Allen.

When the Council opened for business Water Commissioner Millen presented

The undersigned Board of Water Commissioners of the city of Middletown, N. Y., deem that the interests of the city call for and require the expenditure of moneys for the enlargement and improvement of the water works of this city for the purpose of supplying the city with

We propose to build a small dam or catch basin on the Shawangunk Kill, about 800 feet above the Mount Hope mill pond, and carry the water through an open canal, a distance of about two and a hall miles, to a point about 500 feet above the Mount Hope road, where it crosses the Little Stawangnuk Kill Valley, this being a suitable location for a filter bed, and at the head of the proposed reservoir, which will be obtained by building a dam about one and one--Lizzie Halliday fell Thursday and half miles farther down the Little Shawangunk Kill to an elevation not less than tifty feet above the flow line of Monbagen Lake. Said reservoir will cover about 110 acres and have a capacity of 700,

€00,000 galtons. We propose to convey the water from this reservoir to Monhagen Lake through a twenty-inch pipe, a distance of about 1,800 feet, and also connect said pipe with the present city mains, giving additional pressure for emergencies. We estimate the probable cost of the above to be \$175,000.

NEIL WOOD'S NIGHT OUT

Slept Along the North Plank Road—Red Tape Too Much for Humanity After the Case Was Reported in This City.

H. H. Blanchard, superintendent of the National Saw Works, while driving to his home near Fair Oaks. Mouday night, discovered a man lying on the ground by the roadside, about a mile this side of "The Maples."

He aroused the man, who proved to be Cornelius Wood, who was sleepy drunk. Mr. Blanchard talked with bim until he was fairly awake and saw him start toward this city.

Much to his astonishment he found Wood near the same place, this morning, on his return to this city. Wood was asleep and with difficulty was aroused. Mr. Blauchard had no means for caring for the man in his vehicle, but drove rapidly to this city and notified Officer White, at his home, and the latter notified Capt.

The Captain in turn notified Driver Hardenbergh, of Eagle Patrol, but the latter said he could not go out of rown without orders from the chief.

Chief Higham was appealed to, and he very properly considered the case one for the ambulance and poor authorities and they in turn were called upon. After much deliberation it was decided that the case was outside the jurisdiction of the anthornes of this city and nothing

As Wood is a well known character and has been found in similar predicaments on previous occasions, he doubtless rounded to or was taken care of by a passing farmer, but it does seem as it red tape should have given way to humanity and that some effort should have been made to take care of the man.

SAWTELLE DRAMATIC COMPANY.

Gave Excellent satisfaction at the Casino-The dest Repertoire Company

Old theatre-goers, who were at the asino, last night, were most pleasant ly surprised at the production of "Captam's Mate" given by the Sawtelle dramatic company. The house was completely filled and the applause was loud and frequent.

Miss Jessie Sawtelle appeared in the soubrette role of Margie Chester and was well supported by the entire company. She is an attractive little woman with pleasing stage menners and a well modulated voice, and deserved the hearty applause accorded her. The seenery carried by the company was especially fine. The third act showed the deck of the steamer Albatross.

This company is one of the best, if not the best repertoire company that has ever visited this city. The specialties between the acts were especially good. The company carries its own special scenery and it was the general opinion of those present that the production was as good if not better than given by many companies which visit this city and which charge regular prices of admission. The company will remain at the Casino during the week and give daily matinees, at 2 p. m. To-night, "Maine and Georgia" will be produced. At the matinee, to-morrow, the play will be "Was She Right?"

Lizard Saxed by Its Wit. A remarkable story of a contest between a snake and a lizzard comes from becoming, Ky The contest took place in a cluster of saplings and lasted for nearly half a day. The lizard would tun up a sapling crear to the top and patimily wait while the snake wound its way about half way up the sapling Then he would jump from the top of the tree to the ground and the snake would also fling itself from the tree, both striking the ground about the same time, but before the snake could get himself straightened out the lizard, which did not have to uncoil, would scale up another sapling. Then the snake would repeat its efforts to proonre a dinner. The suake, not being a ready climber, was at a great disadvantage in the contest, and after many efforts apparently gave it up as adruit-

The man who goes to find the North Pole must be strong, and brave, and healthy. His is a dangerous and healthtrying task. His nerves must be steady to keep his vessel from wreck. His blood must be pure and rich to withstand ex-cosure and fatigue.

These things are equally as important to the man who stops at home and works, for death and disaster are not confined to the Arctic regions. Steady nerves, pure blood and healthy vigor are essential to health and success anywhere in the world. Thousands of men do not seem to realize this and go about half alive and miserable just for lack of a little of the proper medicine. Dr. Pierce's Golden Medical Discovery is designed to help them. It is a blood vitalizer—a nerve strengthener. It should be taken by every man or woman who is not exactly as well, and vigorous as he or she ought to be. It produces strong, sound, solid flesh - brings springiness back to the step—brightness to the eyes—cheerfulness to the mind. No medicine in the world ever had such a wonderful record of success.

Of Success.

Wm Smothers, Esq., of Millston, Jackson Co, Wis, writes: "I wish to say that Dr. Pierce's Golden Medical Discovery is the best medicine for the Grip that I have ever tried. I was cured twice with it when I could not get any other relief."

# THE DEATH OF J. LELAND WOOD Result of the Cor n r's Inquest Held in

in This City, Wonday Eveni S. The inquest in the case of J. Leland Wood, the Port Jervis boy who was progress is usually slow. Men and killed while attempting to board an Erie freight train, Sauday evening, was held in the office of Justice A. M. Payne, by Coroner Decker and a jury, last eve-

The witnesses were Fred Sharpe, of Port Jervis, one of the companions of the unfortunate lad and the only eye witness to the accident as far as known; Conductor Saul G. Carley of the frain which killed young Wood, and Dr. E. M. Schultz, the physician who attended him after the accident.

The testimony was in accordance with the facts as published and the jury returned a verdict of death due to the deceased's own carelessness.

J. Leland Wood was born Aug. 10, 1879, and was the last surviving son of Lorenzo and Anna Williams Wood. He was a member of the class of '98 of the Port Jervis Academy and a general favorite in the institution. His untimely death has cast a gloom over the entire community. Two sisters, Edua and Carrie, besides his parents, survive him. The funeral will be held Wednesday afternoon at 1:30 o'clock, from his home, 126 Pike street.

### THE COUNTY COURT.

# Disposition of Two Middletown Cases-Accounting in a Newburgh Assign-

In the County Court at Newburgh, Monday, the case of the Hinchliffe Brewing and Malting Company vs. Mrs. L. H. Aber was set down for a hearing before Judge Beattie at Goshen at a later date.

In the case of Charles H. Brink vs. Eveline Hinchman, a motion for an amended return was made and granted. B. B. Odell, Jr., assignee of Alonzo Krom, formerly in the furniture business in Newburgh, made a final accounting. The assets amounted to \$2,285, and after paying the assignee's expenses and allowances to attorneys there remained \$300 to be divided among the creditors, whose claims amounted to \$17,000.

"It was almost a miracle, Burdock Bleod Baters cured me of a terrible heading out all over the body. I am very grateful." Mrs. Julia Fabridge West Cornwell, Conn.

# Bladder Disease.

Bladder, Kidney and Urinary diseases are dreadful afflictions. Their women suffer for years, and many die at last in great agony. Dr. David

Kennedy's Favorite Remedy is the one medicine Ithat cures these diseases. It lifts people out of sick-beds, and restores them to

vigorous health.

Strength begins

to come back as soon as the sufferer begins to take it. "For several years," says Mr. Richard B. Brown, a commission merchant of 306 Washington street, New York, "I suffered from inflammation and ulceration of the bladder. My family physician was unable to relieve me. Specialists failed to do me any good. I kept growing worse. I had been confined to my bed five weeks, and I didn't think there was much chance of getting out of it. Well, I tried Dr. David Kennedy's Favorite Remedy. In a week I was able to get out of bed, and in a short time I recovered completely. I can work 16 hours a day now, and to Dr. David Kennedy's Favorite Remedy all credit is due."

At all drug stores, \$1 a bottle.

PAINFUL ACCIDENT.

### Boy Caught In the Hoisting Tackle at H. T. Stage's Ice House.

Charles Carr, a fourteen-year-old resident of Milo, has been assisting H. T. Stage in gathering ice at New Hampton. This morning the hook which is placed behind the cakes when they are hauled up into the house, slipped and caught the boy who was operating it, in the stomach, pulling him part way up the incline, and tearing the flesh considerably.

The boy was released from his predicament as soon as possible, and he was removed to his home. Dr. Schultz was also notified by telegraph and he went to Milo at noon.
